

To whom it may concern:

I would like to take this time to share my total satisfaction with XM Radio. From the time I started subscribing (approximately 2 years ago) I have continually been surprised at the variety of content this service offers. If I would not have had the opportunity to have this service I might have been forced to listen to my local radio stations, which are a total joke. In Davenport and the surrounding Quad Cities of Iowa and Illinois we have mainly two companies that own the market in this area. The first is the quad city radio group and the second is cumulous radio group. The thing that is bothersome is the fact that there are 15 or so different stations represented by these two companies. Independent marketing research funded by the Quad City Radio Group found that local listeners prefer to hear familiar songs repetitively throughout the day, not me! I prefer variety, the kind of variety that only XM Radio can deliver. Also I have been doing a lot of traveling to the Chicago area lately. On a recent trip to Chicago I relied on channel 217 (Chicago instant traffic and weather), This channel provided me an opportunity to avert some serious traffic and weather adversities. Thank you for the opportunity to be heard and please consider the satisfaction that XM radio delivers to me and the other listeners. XM radio is truly a great service with the that exemplifies freedom to listen to what listeners want.
